marQaha

marQaha (Mar “Ka” Ha)

An Arabic word meaning BLISS, the emotional state that is best characterized by perfect happiness. It also represents something that can only be LOVED.

www.marQaha.com

Drinks, Mists, Tinctures, Topicals, Hemp, Education and More!

marQaha is committed to producing the best products in the regulated cannabis industry while educating the consumer and general public on the deep medicinal benefits of cannabis.

Founded in 2010, marQaha is one of the most trusted brands in the regulated cannabis industry. We are also the world's first cannabis brand to create and produce a strictly hemp based product line available worldwide.

How are we different?

In addition to making great products we focus our efforts on **5** distinct areas in the marketplace. We feel these are an integral part of everything we do and a necessity for the industry as a whole.

This is how we complete our mission:

TESTING: All cannabis and infused products are tested for safety. We test for items such as pesticides, herbicides, mold and bacteria count.

DOSING: Once safety TESTED we lab-test our cannabis extract for CBD and THC levels. This allows us to create a product line that is more medicinally based and safer to consume. With the proper dosage a consumer can always maintain a safe interaction with the product.

PACKAGING: All of our products use **CHILD-RESISTANT** packaging. After the proper DOSE per cannabis extract is established we homogenize the extract into each product then fill and seal in child-resistant packaging during the production phase. The products are then sent to a legally recognized dispensary for a consumer purchase.

EDUCATION: A consumer that is well educated on how to properly interact with cannabis is a necessity. All packaging provides proper dosing indicators and clearly marked "Keep out of Reach of Children" notifications. We have also greatly expanded this belief by creating and maintaining the educational portal; www.CannabisISsafe.com. This portal is also listed on all packaging.

COMMUNITY: We are expanding the knowledge and understanding of cannabis through our proprietary cannabis database www.Qannabis.com, soon to be the largest cannabis strain database in the world. This site is expanding to include listings of all state regulated dispensaries and infused product companies.
